## Principal's foreword

### Introduction

**Welcome to our school.** Texas P-10 State School caters for students from Playgroup to Senior Secondary in a rural setting. Our school promotes life-long learning in an encouraging and nurturing environment where Every Child Matters, Every Day. Our school was established in 1887 under the Principalship of W A Coady. In the 1940s, the school was relocated to its present location, following devastating floods. Our tradition spans 125 years of quality education and is supported by our school's motto, '*Acta non Verba*' or '*Actions not Words*'. We encourage our students to participate to the best of their ability; not just talk about it!

In this report, the reader will find a summary of the reportable events that have shaped 2012. Of course, a school is much more than this. Our school is the '*heart and soul*' of our Queensland / New South Wales border community. It is a safe place that brings the community together and encourages parents to contribute to their child's formal education, whilst acknowledging the hard work and dedication a parent has given their child.

In consultation with our community, through an active Parents and Citizens Association, our school has established a School-Wide Positive Behaviour Support (SWPBS) framework, underpinned by 5 essential values. At Texas P-10 State School, it is expected students will: (1) Be Safe; (2) Be Respectful; (3) Be Responsible; (4) Be Supportive; and (5) Be an Active Learner ... at all times.

Our staff provide effective teaching and learning experiences every day. It is possible to boast more than 300 years collectively in teaching experience and this is reflected in classroom practice or pedagogy that is implemented to improve student performance. Our staff actively seek out Professional Development opportunities and regularly attend meetings to keep themselves informed in best-practice methods. Our staff are united in their pursuit of excellence for every student at Texas P-10 State School.

Students are encouraged to wear the full school uniform which reflects their pride in their school. There is an active Student Council that fosters leadership in a supportive environment, ensuring students are key shareholders in both their school and their education.

If you are considering enrolling your child at Texas, or if you would like further information regarding our school, please contact the office and we will endeavour to meet your needs. At Texas P-10 State School .... **Every Child does Matter, Every single Day!**

### School progress towards its goals in 2012

The school has made progress towards its goals for 2012 by ensuring there remains a strong focus on improving classroom curriculum and pedagogy through enriched teaching and learning experiences. Students are positively rewarded for great behaviour through our SWPBS plan. This is supported by staff who are teaching in the Explicit Instruction Model of '*I Do; We Do; You Do*' which enables a release of responsibility from teachers to students during the teaching and learning cycle.

Staff have implemented the Australian Curriculum in the Key Learning Areas of English, Mathematics and Science. This rollout has been the biggest change to schooling in Queensland for many years. Through ongoing Professional Development and a strong support plan, staff are also embedding Aboriginal and Torres Strait Islander Perspectives into their classrooms.

There has been a renewed focus on improved attendance. Community confidence in our school is also improving through our '*Window of Opportunity*' and the renewal of our school '*Webside*', ensuring every local and global citizen knows about our school and is kept well-informed of student progress. The window enables the school to have a '*footprint*' in the Texas central business district and displays student work, key rules and policies as well as staff profiles and initiatives that occur at the school.

Youth Attainment and Training has improved with a focus on school-based work experience, traineeships and apprenticeships, as well as encouraging transitioning to Stanthorpe SHS for the senior years and accessing the Border College of Trades.

# Queensland State School Reporting

## 2012 School Annual Report

### Future outlook

Following on from 2012, the future outlook for the school is impressive. With community confidence rising, there is a re-engagement of the school's Parent and Citizen Association by community and parents. Hundreds of visitors attended our 125<sup>th</sup> Anniversary in September 2012 and the school community was showcased to a huge audience from many faraway places.

Student population is improving, especially in the early years. The school has commenced a Playgroup under the guidance from Playgroup Queensland. Population trends suggest there will be at least 24 children aged 0 to 5 years who will attend a Playgroup if it is hosted at Texas. To assist with improvements to older student populations, the school has a key focus on the Youth Attainment and Training agenda and is working closely with business and industry to ensure school-based work experience, traineeships and apprenticeships remain a high priority for senior students.

In 2013, all Queensland schools will add History to its suite of Australian Curriculum modules. To support this, The Arts (Art, Music and Performing Arts), Health and Physical Education (HPE), Language Other Than English (LOTE), Studies of Society and Environment (SOSE) and Technology (ICTs, Home Economics and Manual Arts) curricula will be supported by the Queensland Essential Learnings.

Both the Australian Curriculum and the Queensland Essential Learnings will provide our students with a core program that will assist with their moderation across the state and will ensure Texas students are on par with their counterparts in other states. Our school is meeting curricula targets through the dedicated work from our **Head of Department – Curriculum** to ensure the curriculum will be implemented in all classrooms from Day 1, Term 1, 2013 with ongoing support for teachers through Professional Development that targets skills to ensure students remain focussed and the curriculum can be embedded successfully.

Our school and student performance is improving with the appointment of our Literacy Leader and Numeracy Leader. The **Literacy Leader** is directly responsible for the implementation of the whole-of-school Reading Plan, titled, R.E.A.L. Reading. The **Numeracy Leader** is directly responsible for the implementation of the whole-of-school Numeracy Plan with a focus on Number. Staff will be given internal Professional Development and offered external Professional Development to support teacher capacity and school-wide consistency.

SWPBS will continue to improve school-wide behaviour through the ongoing work of the **Dean of Students**. The Dean will ensure a consistent message evolves around behavioural expectations. Students will have the 'Be' rules reinforced through a series of lessons. Regular updates to parents through the school Newsletter and Website, as well as the Window of Opportunity, will ensure parents are aware of the weekly rule and can reinforce this with their children.

Teachers have access to data models for student improvement. The school has established a **Data Leader** who provides data training to staff around effective differentiation in their classrooms. Data models are used to ensure all students have a target and goal, set in conjunction with their teacher, in the area of Reading. *'Reading Walls'* will be established to ensure students can track their progress.

The school will apply funds to the **MacIntyre Cluster of Schools** for the Pedagogy Coach support role. The Pedagogy Coach will be employed to support the school in meeting the 2013 deadline to implement a Pedagogical Framework for Texas. This framework will ensure student needs remain the centre of the teaching and learning cycle, based around the school's Explicit Instruction. Our own Pedagogical Framework, *The Texas Teacher*, will be aligned to cluster expectations and support consistency in practice.

To ensure digital pedagogies continue to promote engaged learning for students, teachers will be offered an opportunity to complete their *'Digital Pedagogical Licences'*. Supporting these licences, the school is committed to providing all students from Years 7 to 10 with a laptop computer for their use. The school will also set aside teaching spaces and convert these into computer laboratories, ensuring all students are enabled to engage digitally.

# Our school at a glance

## School Profile

**Coeducational or single sex:** Coeducational

**Year levels offered in 2012:** Prep - Year 10

**Total student enrolments for this school:**

	Total	Girls	Boys	Enrolment Continuity (Feb – Nov)
2010	178	87	91	85%
2011	163	84	79	89%
2012	192	106	86	92%

Student counts are based on the Census (August) enrolment collection.

## Characteristics of the student body:

Students who attend Texas P-10 State School come from diverse backgrounds including low socio-economic status; parents who are employees of local businesses and farming enterprises; parents who are business owners; rural sector families, including broad-acre farming and animal husbandry; local government families; and mining families.

Students are drawn from a wide catchment which includes towns and villages in the border region of New South Wales. More than 60% of students travel to school by bus and for some children, the trip is in excess of 60 km each way, each day. Texas' town population is less than 900 people, and about 35% of our population is derived from the town itself. Our Indigenous population is 11% and Anglo-Australian population is 89%.

## Average Class sizes

Phase	Average Class Size		
	2010	2011	2012
Prep – Year 3	19	18	16
Year 4 – Year 10	13	9	13

## School Disciplinary Absences

Disciplinary Absences	Count of Incidents		
	2010	2011	2012
Short Suspensions - 1 to 5 days	8	10	0
Long Suspensions - 6 to 20 days	0	2	0
Exclusions	0	0	0
Cancellations of Enrolment	0	0	0

## Curriculum offerings

### Our distinctive curriculum offerings

The aim at Texas P-10 State School is to provide a curriculum which maximises the capacity of students to achieve their potential. This includes enabling students to progress with a strong knowledge base on which to advance their educational journey; Year 10 students to transition within the Senior Phase of Schooling; and students to exit from our school with the capabilities and values to be effective and responsible citizens.

We provide the full range of Key Learning Areas from Prep to Year 10. Our Prep to Year 10 campus allows flexibility for our students in Years 6 to 10 to access specialist classes including Manual Arts, Home Economics, Science, Languages Other Than English and Art/Music throughout the year.

Year 10 students are encouraged to commence Work Experience programs that generally lead to school-based traineeships or apprenticeships.

### Extra curricula activities

This school provides students to participate in a range of educational settings that promote individual diversity and strengths as well as teamwork and cooperation. Texas P-10 State School encourages our students to participate in:

- Student Representative Council and School Leadership Program;
- House sports, inter-school sports and representative sporting pursuits including swimming, cross country, athletics and team sports which include rugby league and netball (Broncos Cup Competition), soccer and touch football;
- Healthy Active After-School sports programs;
- School Public Speaking program that leads on to the Darling Downs and Granite Belt Rostrum competition;
- Granite Belt Mathematics Challenge;
- Goondiwindi Regional Council Eisteddfod; and
- Community events that showcase the school including ANZAC Day celebrations, Texas Show; Community Concert and Awards Evenings, Torture on the Border Triathlon and Mingoola Retirement Village visits.

### How Information and Communication Technologies are used to assist learning

The use of Information and Communication Technologies (ICTs) is changing relationships between teachers and students at Texas P-10 State School and for people across the world. This school uses ICTs as an integral tool to engage students in understanding concepts and processes in more depth and to enable them to demonstrate their understanding, fit classroom learning to particular student needs and interests, and to extend the reach of the classroom across space and time.

Using ICTs as an effective tool for learning both supports Key Learning Area learning and provides all students with the opportunity to become competent, discriminating, creative and productive users of ICTs.

Using ICTs to develop digital pedagogies that support Key Learning Areas supports student achievement and consolidation of the Australian Curriculum and Queensland Essential Learnings; enables ways of working and learning, through authentic and challenging tasks, that are not possible or are less efficient without technologies; and stimulates student engagement in learning.

Students engage in explicit learning through the following five aspects of ICTs within their classrooms or school:

- **Inquiring with ICTs** to process information and data in many ways;
- **Creating with ICTs** to make thinking processes visible, clarifying concepts and plans;
- **Communicating with ICTs** to share, interact and develop relationships with audiences;
- Understanding issues and **applying ethics when using ICTs** appropriately; and
- **Operating ICTs** effectively in a range of contexts and for a variety of purposes.

## Social climate

Students are happy, safe and engaged in learning at Texas P-10 State School. Our school encourages positive behaviours and students participate in School-Wide Positive Behaviour Support (SWPBS) which ensures positive behaviours are reinforced. Our Responsible Behaviour Plan for students specifically addresses bullying and cyber-bullying and students are encouraged to be supportive, active learners.

Student leadership and Student Council programs foster peer support and staffing structures including a Dean of Students, Guidance Officer and Advisory Visiting Teacher (Behaviour) ensure staff and students remain focused around our 5 essential values:

- Be Safe;
- Be Respectful;
- Be Responsible;
- Be Supportive; and
- Be an Active Learner.

## Our school at a glance

Students are also encouraged to participate in whole-cohort camps, excursions, Arts Council visits and also celebrations that include the Texas Show and other community functions.

To celebrate student work and achievement, the school maintains a current website and displays a 'footprint' presence at the 'Window of Opportunity' in the central business district in the main street in Texas.

### Parent, student and staff satisfaction with the school

These results for 2012 indicate parents are mostly satisfied with the school. Previously, students and parents believed the school could be doing a better job. This data is evidence that the School Leadership Team is working towards ensuring that this is occurring.

This information has identified the following as priorities for beyond 2012:

- Explicit teaching of Reading in a whole-school approach;
- Improved attendance and behaviour with the revitalising of the SWPBS; and
- The purposeful use of data to inform explicit teaching and learning every day.

Staff have acknowledged a strong staff morale and a balanced approach when accessing Professional Development.

#### Performance measure (Nationally agreed items shown\*)

Percentage of parents/caregivers who agree that:	2012 <sup>#</sup>
their child is getting a good education at school	88.2%
this is a good school	88.9%

# Our school at a glance

## Involving parents in their child's education

The Texas P-10 State School Parents and Citizens Association is an active parent body who focus on the learning needs of the children who attend the school. Those who participate in this organisation are aware of the challenges and everyday needs of parents of our students. This association is actively involved in providing Tuck-Shop once per week as well as coordinating the Uniform Shop to ensure student needs are met.

Parents and volunteers are given opportunity and encouraged to participate in Reading Training through the Ready Reader Program and volunteer their time in classrooms to assist with reading groups.

The school has the Corporate Reporting Role, which provides regular updates to parents through the weekly newsletter *'The Texas Telegraph'* and to the wider community through articles for the local newspaper, *'The MacIntyre Gazette'* and *'The Border Post'*. Our community has an improved opportunity to engage with school through the *'Window of Opportunity'*, which provides a school-based footprint in the Texas CBD.

## Reducing the school's environmental footprint

Data is sourced from school's annual utilities return and is reliant on the accuracy of these returns.

In late 2011 and 2012, a 12Kw Solar Panel System was installed at the school. These solar panels are expected to come online in early 2013 for green power generation. The solar panels, as well as water reticulation and irrigation systems have been installed in response to the School Environmental Management Plan (or SEMP).

The SEMP was the culmination of work from the Environmental Committee, established to reduce the school's environmental footprint and increase the school's sustainability over time. The environmental Committee is comprised of students, parents, teachers and community members, with the guidance of local Landcare Officers.

	Environmental Footprint Indicators	
	Electricity kWh	Water kL
2009-2010	68,291	12,061
2010-2011	899	13,556
2011-2012	93,019	1,892

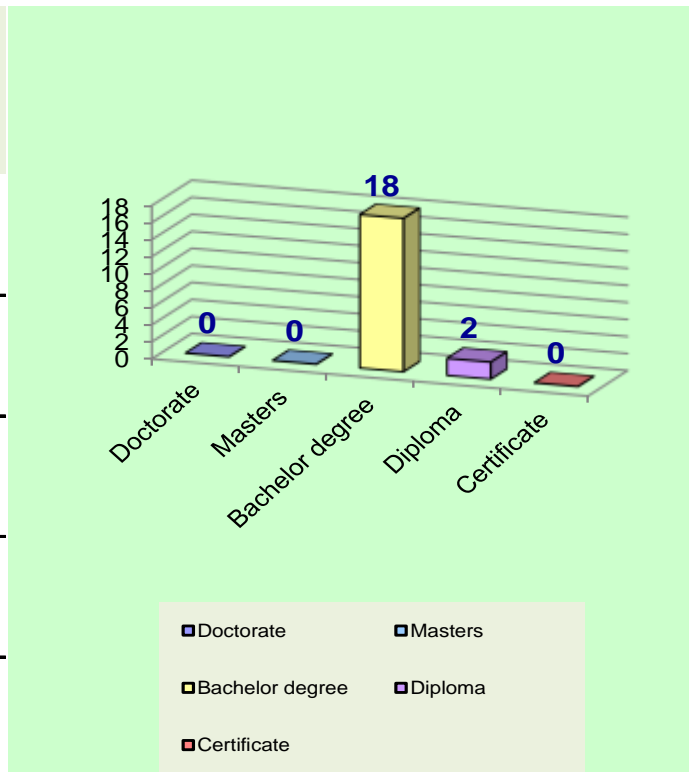

# Our staff profile

## Staff composition, including Indigenous staff

2012 Workforce Composition	Teaching Staff	Non-teaching Staff	Indigenous Staff
Headcounts	20	16	<5
Full-time Equivalents	16.9	10	<5

## Qualifications of all teachers

Highest level of attainment	Number of classroom teachers and school leaders at the school
Doctorate	0
Masters	0
Bachelor degree	18
Diploma	2
Certificate	0

## Expenditure on and teacher participation in professional development

The total funds expended on teacher professional development in 2012 were **\$16,684**.

The major professional development initiatives are as follows:

- Explicit Teaching Model (including the John Fleming Model of Explicit Teaching);
- Implementation for the Australian Curriculum;
- Behaviour Management Training (including Positive Behaviour Support)
- One School Finance Modules
- First Steps in Reading and Writing; and
- Staff First Aid

The proportion of the teaching staff involved in professional development activities during 2012 was **100%**.

# Our staff profile

## Average staff attendance

	2010	2011	2012
Staff attendance for permanent and temporary staff and school leaders.	97.8%	97%	97.3%

## Proportion of staff retained from the previous school year

From the end of the previous school year, 82.2% of staff was retained by the school for the entire 2012 school year.

DW = Data withheld to ensure confidentiality.

### Student Attendance Distribution

The proportions of students by attendance range.

### Description of how non-attendance is managed by the school

Non-attendance is managed in state schools in line with the DET policies, SMS-PR-029: Managing Student Absences and SMS-PR-036: Roll Marking in State Schools, which outline processes for managing and recording student attendance and absenteeism.

Each parent of a child who is of **compulsory school age** at Texas P-10 State School, has the legal obligation to ensure their child is enrolled and attends school on every school day for the educational program in which the child is enrolled, unless the parent has a reasonable excuse.

Texas P-10 State School produces lists of **enrolled students** in class groupings (student rolls) for the purpose of collecting information about attendance and absence. The information collected for all students is entered into the recording database, OneSchool, and is reported to parents at the end of each semester. Student rolls are marked by authorised staff twice each school day.

From time to time, a student may be absent from their educational program. Parents comply with their compulsory schooling or compulsory participation obligation by providing a **satisfactory reason** for these absences. Parents should provide a reason for the child's absence as soon as possible after the absence.

To assist with student absence, the school's **Student Absence Hotline** is available for parents to contact 24 hours per day. When students are absent and there has been no written or verbal communication with the school from the parent, the parent is followed-up to identify the absence and seek an explanation.

If the unexplained absence lasts for three or more consecutive days, the school will take reasonable steps to follow-up the absence and work with the family for the student to return to school.

If the child fails to return to school, and has not moved interstate or cancelled their enrolment, the school will follow the appropriate processes for **enforcing** the parental obligation to attend school in regard to enrolment, attendance and compulsory participation.

**Students are rewarded for maximum attendance.**

# Performance of our students

## National Assessment Program – Literacy and Numeracy (NAPLAN) results – our Reading, Writing, Spelling, Grammar and Punctuation and Numeracy results for the Years 3, 5, 7 and 9.

Our reading, writing, spelling, grammar and punctuation, and numeracy results for the Years 3, 5, 7 and 9 are available via the My School website at <http://www.myschool.edu.au/>.

To access our NAPLAN results, click on the *My School* link above. You will then be taken to the *My School* website with the following 'Find a school' text box.

If you are unable to access the internet, please contact the school for a paper copy of our school's NAPLAN results.

## Achievement – Closing the Gap

Attendance, Engagement through Explicit Instruction and Differentiation are the keys to improving our Whole-of-School and especially our **Indigenous Student Performance**.

The School Leadership Team has concentrated strongly on whole-school attendance. Staff are continually updated in the Explicit Instruction agenda and teacher capacity building. Indigenous students have closed the gap in Year 3 Reading and are continuing to outperform non-Indigenous counterparts.

To improve digital literacies, students in Years 5 and 6 have been enrolled in the OLLIE-UP (On Line Learning for Indigenous Education) program for 2012 and 2013.
